

LANDMARK GATES

Bespoke Ranch & Residential Entryways
Built by One Craftsman. Built to Last.

WHO WE ARE

Landmark Gates is a Missouri-based company creating custom ranch and residential entryways rooted in traditional craftsmanship.

Every gate, column, and architectural element is built start-to-finish by one craftsman — no outsourcing, no prefab components, no production line. Metalwork, stonework, woodwork, and installation are all completed by hand, on site, with a focus on durability, proportion, and function on the land.

In an era of mass production, Landmark Gates preserves a disappearing skill set: building things the right way, once.

WHAT MAKES US DIFFERENT

- **One craftsman, start to finish** — every project is personally built and installed
- **No outsourcing** — metal, stone, wood, and structure done in-house
- **Missouri-rooted craftsmanship** — skills learned and refined over decades
- **Functional first** — beauty that serves land, livestock, and longevity
- **Bespoke only** — no catalog designs, no repeat builds

SIGNATURE WORK

- Ranch & estate entry gates
- Stone column and gate systems
- Equestrian and agricultural entrances
- Architecturally integrated custom builds

Recent highlight:

Equestrian-themed stone column & gate installation in Rocheport, Missouri

STORY ANGLES (FOR MEDIA / PARTNERS)

- *The last of the one-man builders*: why one craftsman still does it all
- *Made in Missouri*: craftsmanship rooted in land, labor, and longevity
- *Form follows function*: building for working land, not just curb appeal
- *Why nothing is outsourced*: quality, accountability, and pride of work

QUICK FACTS

- Family-owned & operated
- Missouri-based
